To Perform or Not to Perform ROSE, That is the Question? Rapid on-site evaluation (ROSE) of samples obtained by fine needle aspiration (FNA) procedure has been practiced for many decades. The aim of ROSE is to determine sample adequacy, and in some cases render a preliminary diagnosis by performing rapid stains with evaluation by a cytopathologist or certified cytotechnologist. It has been shown that ROSE enhances the sample adequacy, the diagnostic yield, and accuracy of the procedure similar to frozen section evaluation in surgical pathology. In the era of personalized medicine ROSE can facilitate obtaining an adequate specimen for ancillary studies including immunohistochemistry and molecular studies. However, besides these pros some authors have also discussed cons of ROSE including, burden on pathologist's time, institutional demands and clinical work logistics. In this session role of ROSE will be discussed by seasoned faculty including its benefits and challenges in everyday practice of cytology.

Membership 2019

- **Total Members 2019**: 86 Members + 1 emeritus/fellow
  
  USA (78), Canada (1), Australia (4), Italy (1), Germany (1), Portugal (1), Japan (2), South Africa (1); 1 emeritus/fellow

Previous years

- Membership 2018 - 105 Members
- Membership 2017 - 131 Members
- Membership 2016 - 139 Members
- Membership 2015 - 129 Members
- Membership 2014 - 122 Members
- Membership 2013 - 160 Members
- Membership 2012 - 204 Members
- Membership 2011 - 135 Members
- Membership 2010 - 256 Members
- Membership 2009 - 235 Members
Membership Committee Charges

1. Flyer distributed at the 2019 Meetings and international meetings in different countries

2. Having Sponsored the USCAP 2019 PSC Evening Companion Meeting (Vancouver, Canada)

3. Communication with members regarding PSC initiatives and announcements

4. Membership updates for renewal of membership

5. Draft of a letter for renewal of membership

6. Evaluation of the paying members
Membership Committee

- Our committee focused on distributing the society flyers with all the cytological societies and organizations.
- We foster these flyer distribution with also pathology organizations in order to increase memberships.
- We evaluated the number of paying members (2019).
Membership Committee

- We discussed about the members who are/were not renewing their membership and a letter was sent

- We solicited members (Including EB and Committee) to pay the annual fee
Membership Committee
Possible ideas

• Our major goal is to assure that, as happens for ALL the scientific societies, members who want to be lively and active part of the society, regularly pay the annual fee

• we can suggest/proposal PSC activities in the different national/international meetings on social media

• Adv of the PSC sections in the different international meetings and with social media

• **Stronger interaction with the social media committee to promote the society**

Education and Training Task Force—current and future directions

- Work with the PSC President and respective Committee Chairs to:
  - Facilitate access to and review of evaluations of all programs offered by PSC at USCAP and other PSC companion meetings
  - Develop guidelines and timeline for PSC Case of the Month content and coordinate with Webmaster to develop a standardized online case submission form for PSC members to submit cases.
  - Utilize Social Media to disseminate Case of the Month and other educational content.
